## **Costume Contest Judging Criteria**

### **Quality**

What we look at: If your costume is handmade or store bought, we look at the stitching, material and fit. Handmade costumes get a bonus on this category. If you have compiled your costume from things found around the house, we look at how you have modified them, how you paired them and how creative you were. We also will consider wig styling and make-up.

**Tips:** We favor handmade costumes over anything else. If your costume is handmade, make sure to let us know how you made it, if not, try and put more emphasis on something you styled, like your wig or make-up.

### **Accuracy**

What we look at: We will be checking how faithful your costume, hair, make-up and props are to the character you're dressing as.

**Tips:** Print out a picture of your character showing the full costume. Do mention any variations or specific versions you considered. If what you're dressing as is not an existing character, mention at least a point of reference or inspiration.

## **Presentation**

What we look at: The goal of the costume is to look as much like your character as possible, this includes body motions and phrases you say. Those who act in character will score higher than those who do not.

**Tips:** Talk in the tone of your character and try to say things that he would say. Stand, pose and move like him too.

## **Effort**

What we look at: We will try and determine how hard each person had to work to complete his costume, find a rare prop, style the appropriate wig or do his make-up.

Tips: Make sure to tell the judges how long you worked on compiling your costume and point out details that required effort to complete.
