
Student Technology Loaner Program – Policies and Guidelines

Summary

The College's Student Technology Loaner Program is intended to help students obtain computing needs to complete course work that's part of a degree or certificate.

This document establishes a clear and fair laptop loaner program that benefits college students while ensuring the responsible use and maintenance of the provided laptops.

Eligibility Criteria

The following are the eligibility criteria for the loaner program.

- Students who are part of CState Accelerate program

OR

- Students admitted into a program (degree or certificate) and enrolled for 6 or more credits in a semester.

If an eligible student in one semester becomes ineligible in the next semester, based on eligibility criteria, the laptop must be returned.

Laptop Distribution

Laptops are released to students one week before the semesters starts.

If the college runs out of inventory, then all pending forms submitted will be declined. Students must then submit a new form for the next semester.

Application Process

To apply for the laptop loaner program, use the Student Technology Loaner Program eForm for online submission. If the inventory is depleted, any outstanding requests will be kept in a pending status until the semester concludes. Should laptops become available within that timeframe, they will be assigned to pending requests in the order of submission.

At the semester's end, all pending requests will be rejected. Students needing a laptop for the following semester must reapply by submitting the form again.

Laptops will be distributed based on *active inventory*, eligibility criteria, and then on a first-come, first-served basis.
