Commencement Program

The Procession

The Presidential Party and The Board of Trustees

The Faculty and Administration

The Candidates for Degrees and Certificates

Moment of Silence.....Robbin Hoopes, JD
Provost

National Anthem

Welcome Address..... Robbin Hoopes, JD
Provost

Presentation of the 2022 Faculty Excellence Award Recipients

Presenter..... Jayne Martin Dressing, MA
Cooperative Education and Internship Coordinator / Professor Secretary, Faculty Senate

House/Bruckmann Faculty Excellence Award Recipients:

Award Recipient..... Beth Hamon, DNP RN CNE
Health and Public Safety

Award Recipient..... Kathleen Pickens, MLS
Johnnie Mae Berry Library

Adjunct Faculty Excellence Award Recipients:

Award Recipient.....Jennifer Geiger, BS, Engineering and Information Technologies

Award Recipient.....Debbie Greenlee, MS, Humanities and Sciences

Award Recipient.....Kathryn O’Gorman, MLS, MAT, Business Technologies

Award Recipient.....Felicia Rinaldi, MA, Health and Public Safety

Presentation of Distinguished Alumni..... Dillon Ruby
President Alumni Association Culinary Arts -2012 Member Since 2019

Award Recipient..... William A. Neyer
Mechanical Engineering Technologies’86
City of Harrison Mayor

Student Address..... Cimarra Pierman, ’22
Nursing, Health & Public Safety Division

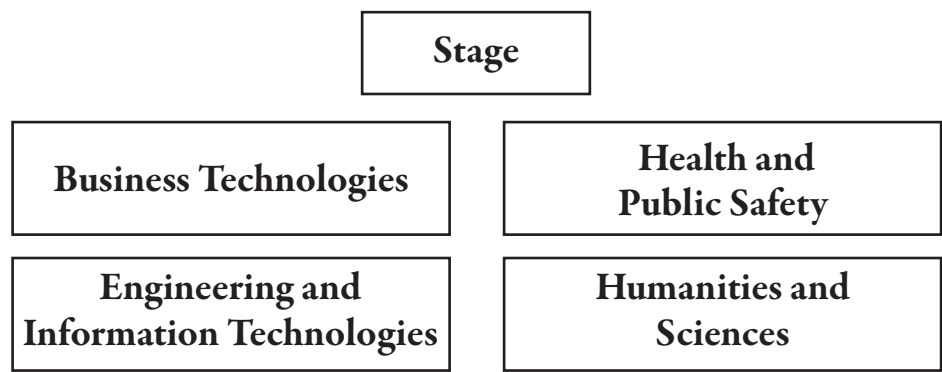

Presentation of Honorary Degree Recipient..... Monica J. Posey, MBA, Ed.D
Award Recipient.....Attorney George H. Vincent BA, JD
Board Chair, Cincinnati State

Commencement Address.....Attorney George H. Vincent BA, JD
Board Chair, Cincinnati State

Commencement Map

Graduation Honors

- Cum Laude 3.50- 3.79
- Magna Cum Laude 3.80 - 3.89
- Summa Cum Laude 3.90 - 4.00
- Students graduating with honors wear green honor cords.
- Honors Program graduates wear gold honor cords.

Academic Dress

From the costumes worn in the academic procession one can tell the level of degree (associate's, bachelor's, master's, doctor's) the wearer has earned, the field of learning, and the institution that granted the degree. The costume consists of cap, gown, and hood.

The usual cap is a square black mortarboard with a black tassel; the doctor's cap has a gold tassel. The gown is also normally black. Associate's, bachelor's and master's gowns are relatively plain and closed in front; the doctor's gown is cut fuller, is open in front, has velvet panels down the front, and has three velvet bars on the sleeves. The panels and bars are usually black.

The hood, patterned after the medieval monk's hood, goes over the shoulders and hangs down in back. The hoods for the three degrees vary in length from the bachelor's, the shortest, to the doctor's, the longest. The velvet border shows by its color the field of learning; the most common are: white-arts, letters, humanities (usually seen in honorary doctor's degrees); dark blue-philosophy (the most common in doctor's hoods); purple-law; scarlet-theology; green-medicine; golden yellow-science. The same colors may be used in the panels and bars of the gown. The most distinctive part of the costume is the silk lining of the hood which bears the official colors of the institution granting the degree.

The Ceremonial Mace of Cincinnati State Technical and Community College

A mace is a symbol of authority that has been used since medieval times when knights carried them in processions with their king or queen.

Over time, the mace has become an emblem of peaceful leadership and integrity. Many colleges and universities include a ceremonial mace as part of commencement and other official events.

A mace is a symbolic reminder that every institution of higher education carries out a long tradition of adding power and knowledge to the lives of those who come to learn. A mace also is a reminder that the learning process is not always comfortable or easy.

The Cincinnati State Ceremonial Mace was created in 2016 to commemorate the inauguration of Dr. Monica J. Posey as the College's sixth President.

Each section of the mace represents a portion of the history and the continuing mission of the College.

For further information on the symbolism and history of the Mace, go to www.cincinnatistate.edu/mace.

Business Technologies

Cum Laude 3.50 - 3.79

2022 House/Bruckmann Faculty Excellence Award

Recipients:

*Beth Hamon, DNP RN CNE,
Professor, Nursing
Health and Public Safety*

Dr. Beth Hamon is nominated for her excellence in instruction, her collaborative spirit, and her professional achievements.

Beth holds students to high standards and provides guidance that helps students develop test taking strategies as they prepare for the nursing board exam (NCLEX-RN). As a result of her instruction and test taking support, more than 90% of the Nursing students consistently pass the exit exam on their first attempt.

Beth also helps guide and support new faculty members, including sometimes co-teaching with new faculty to help them learn best practices for engaging with students. She shares class content such as lectures and videos and provides models such as using case studies and other “real life” applications to connect the students’ clinical performance with their classroom theory and knowledge. She models teaching practices such as calling on students by name (even in a virtual setting) and actively engaging with students who are struggling to learn new content.

Beth went back to school and earned her Doctorate in Nursing Practice, which helped her to further develop her leadership skills. She has used what she has learned to strengthen the Nursing curriculum and has served as a resource to faculty regarding test statistics and construction.

Beth also strengthened her abilities as an educator by preparing for and passing the Certified Nurse Educator exam. She has applied her knowledge of student-centered learning by implementing virtual simulations and case studies in her courses.

Beth’s nomination reflects the excellence that inspires her colleagues and her students to move forward into their careers.

continued on page 20

Kathleen Pickens, MLS
Coordinator of Information Services
Johnnie Mae Berry Library

Kathleen Pickens is nominated for excellence in instruction, commitment to student success, collaborative spirit and contributions to the College.

In a project that went well beyond her typical job duties, Kathleen worked countless hours throughout the winter break to develop a series of interactive Skill Builder tutorials that teach students how to find, evaluate, and use various library resources. Each module starts with a

demonstration video and then gives the users the chance to put their knowledge into action.

In addition to the tutorials, Kathleen has also worked to expand the library's subject area databases and teach students about the power and possibility that research can provide to their academic pursuits. She constantly seeks out feedback about any new resources or policies and she's always willing to lend a helping hand and serve in whatever capacity is needed.

Kathleen's passion for work is contagious and motivates those who have the pleasure of working with her. As emcee for last year's New Employee Welcome Party on Zoom, Kathleen brought some much-needed laughter to the event by giving career advice to those who would be working remotely via Zoom: "Wear pants!" She even sketched hilarious stick figures for new employees who didn't provide photos.

During the past two years, Kathleen was the driving force behind the library's pandemic response plans, including finding ways to expand virtual services, such as implementing scheduling software to set appointments for instruction and research assistance.

Kathleen's nomination reflects her dedication, flexibility, and hard work which have been particularly evident during the difficult last couple of years.

2022 Adjunct Faculty Excellence Award Recipients:

Jennifer Geiger, BS, Engineering and Information Technologies

Jennifer was nominated for her Commitment to Student Success.

In her nomination, Jennifer was described as sympathetic and caring toward students and praised for her excellent rapport with employers, students, and co-workers in her efforts to develop new co-op opportunities. She is described as passionate about helping students succeed through her teaching, advising. She is well respected by her peers, and always has a positive attitude. She represents the College professionally in all her interactions with co-workers, employers, students and the community. She has also worked to develop a WEB version of Environmental Geology for the new Land Surveying Program.

Jennifer encourages students to participate in activities beyond the classroom such as participating in Mill Creek Alliance Water Testing & Stream Monitoring Program and with the Green Umbrella Organization to gain experience in the field and to make professional contacts.

Jennifer has assisted with many extracurricular events, including:

- Earth Jam, Greater Cincinnati's Earth Coalitions Earth Day Celebration
- Presenting at the Environmental High School Days and other recruiting events such as high school visits and Engage.
- Serving as a judge for Ignite Institute's Engineering Student Presentations
- Conducting virtual tutoring for students

continued on page 22

Debbie Greenlee, MS, Humanities and Sciences

Debbie was nominated for her Excellence in Instruction, Commitment to Student Success, and Contributions to the College.

Debbie teaches First Year Experience, the course designed to help students navigate college successfully. Students say she cares about their success, not just getting them through the class. She empowers students and others to do and be their best because she is committed and student centered, offering quality comprehensive academic tutoring. As part of her work with the Tutoring Center, successfully transitioned the Tutoring and Math Center's services from in-person services to remote services during the COVID-19

Debbie has also been instrumental in supporting various College initiatives and student activities, including:

- Co-Curricular Review for the Higher Learning Commission
- Higher Learning Commission Peer Review Team
- Student Food Insecurity Initiative including the Surge Food Pantry and the Farmer's Market
- Staff sponsor for the Cincy 4 Christ student organization

Kathryn O'Gorman, MLS, MAT, Business Technologies

Kathy received two nominations for her Excellence in Instruction.

Kathy teaches Financial Accounting and Payroll courses. She has been extremely instrumental in teaching a variety of course formats including online and LiveWeb formats. She has always suggested a number of enhancements to the Financial Accounting course that have been incorporated over time. She works closely with the full-time faculty to develop and implement any changes that will improve the course and delivery of material, and her review and input are critical to the success of this gateway course. Kathy continually offers her assistance and time in areas that will improve the courses and program for our students.

Kathy is described as a dedicated, passionate, and competent educator who possesses a commitment to our students, mission, and the overall impact of Cincinnati State on the community.

Felicia Rinaldi, MA, Heath and Public Safety

Felicia was nominated for her Excellence in Instruction and her Collaborative Spirit.

In her years of teaching BIO 100, Felicia has shown an impressive commitment to her students and a drive to improve her teaching. Her communications to students could be used as examples in class management lessons for faculty.

They are both direct and compassionate, and she walks the difficult line between providing support and holding students accountable. When the pandemic hit, Felicia was a key part of the shift to an entirely new modality of instruction for BIO 100. She has taken on more and more leadership in the delivery of the course. Many of her innovations in delivery during the pandemic are now a standard part of the course, delivered across all sections. These LiveWeb courses were so successful that they will likely be kept as an option for future course delivery.

2022 Distinguished Alumni

William A. Neyer, MET '86

City of Harrison Mayor

Like many students today, when William (Bill) Neyer began college in the 1980's, the cost of attendance was something he had to contend with.

After a year at Miami University, Neyer felt he could not afford to continue. He transferred to Cincinnati State (then Cincinnati Technical College) which was then, like now, a far more affordable option. He never looked back.

"I had such a positive experience at Cincinnati State," said Neyer, who would graduate Cum Laude with an Associate of Applied Science degree in Manufacturing Engineering Technology.

After working in the steel fabrication industry for four years, Neyer transferred into the environmental industry. He worked for 14 years at the Fernald Clean Up Site in Crosby Township, while also earning a Bachelor of Science in Environmental Management at the University of Findlay.

By then, Neyer, his wife Brenda, and their three children were living in Harrison. When he began seeing unmet needs in the community, Brenda encouraged him to run for city council.

Neyer served several terms as a council member, and in 2015 was elected Mayor, an office he has held since. He also continued working full-time and is now the Superintendent of Public Works for Sunman, Indiana.

"Under Mayor Neyer's leadership, we have seen the city grow and grow. He has also been a champion for Cincinnati State, helping with recruiting, airport master planning, and expanding the Cincinnati West facilities. I can think of no one more deserving of this award," said Douglas Bowling, dean of Engineering and Information Technologies at Cincinnati State.

Cincinnati State Alumni Association President Dillon Ruby ('13) found Neyer's story "inspirational."

"I really like what Mayor Neyer has done to not only step up for Harrison, which is a very nice city, but also beyond Harrison," said Ruby, vice president of Jeff Ruby Culinary Entertainment.

Neyer is currently leading a fundraising campaign for Harrison's sister city in Germany, Meckesheim, which had one of its emergency vehicles severely damaged during relief efforts at the border of Ukraine.

Neyer's children are now adults. Billy and Hannah are graduates of Cincinnati State, and Jacob is a graduate of the University of Cincinnati. Neyer also has two grandchildren.

"Whether you are a city or an individual, you have to invest in yourself to be successful," said Neyer. "I invested in college at Cincinnati State. It turned out to be a tremendous investment for me."

2022 Student Address

Cimarra Pierman, '22

Nursing Health & Public Safety Division

Cimarra Pierman is a devoted mother of two with a lifelong passion for helping others. She began her career in nursing at Cincinnati State after the traumatic birth of her son resulted in several complications and an extended hospitalization. It was through this experience that she saw first-hand the many disparities in healthcare that minorities face and how imperative it is to have a nurse that is willing to firmly advocate for their patient.

Inspired to make meaningful changes, she enrolled in the Nursing Program and has maintained a 4.0 GPA. Cimarra was named Cincinnati Children's Minority Scholar this past year. After graduating, Cimarra will begin working in pediatrics, where she hopes to help bridge the gap in care for patients and their families. This fall she will attend the University of Cincinnati to pursue her Bachelor's Degree in Nursing and aims to become a Nurse Practitioner in the future.

Cimarra attributes her success to having dedicated faculty members who believed in her, and worked tirelessly to provide a thorough education amongst many challenges that the pandemic brought along. Additionally she recognizes the tremendous role her family held in getting her to this point.

She would like to thank her mother for sacrificing every off day to let her catch up on homework, her grandmother for coming over to help where needed, her partner for working so hard to allow her the opportunity to follow her dreams, and her two sons for being a constant source of inspiration and motivation.

2022 Honorary Degree Recipient and Commencement Speaker

George H. Vincent

Managing Partner and Chairman, Dinsmore & Shohl LLP

As George Vincent grew up in Dearborn, Michigan, it was a natural choice he would enter the legal profession. His father and great grandfather were attorneys.

When he graduated from the University of Michigan Law School in 1982, Vincent received offers from firms in several cities.

He says he “got lucky” when he chose Dinsmore & Shohl and Cincinnati. The same could be said for the firm and the Greater Cincinnati community.

“George is that rare individual who has positioned himself to make things happen. His relationships throughout the legal and business community are second to none. He knows the issues. He is a broad thinker. And he is broadly involved,” said Jill Meyer, president and CEO of the Cincinnati USA Regional Chamber.

As a corporate attorney, Vincent has long provided counsel for the Procter & Gamble Company, and advised many other clients on mergers, acquisitions, and other litigation. Under his leadership, Dinsmore & Shohl is now the largest law firm in Greater Cincinnati and one of the most prominent firms in Ohio.

“George is not only a legal advisor and business partner, but also a friend,” said Bob Castellini, chairman of Castellini Company. “His quick wit and wise counsel have guided me throughout our 30-plus year relationship. George exemplifies what it means to give back and be involved in our beloved community.”

Vincent’s community service includes serving as board chair of Cincinnati State Technical and Community College, the Cincinnati Art Museum, The Christ Hospital, the Cincinnati Museum Center, the Hamilton County Republican Party, the Greater Cincinnati Foundation, and many other organizations and campaigns, including the recent SORTA levy.

“George has been an outstanding leader for so many organizations,” said Dr. Monica Posey, president of Cincinnati State. “We truly appreciate that he added Cincinnati State to his list. His leadership as board chair has positioned us to build an even greater future for this institution and the community.”

For Vincent, community service is a matter of mind and mission.

“You serve in areas where you are interested, then you get to dig deep and learn so much. For me, that has been art, education, health and other subjects that appeal to the different parts of my personality,” he said. “Service is also something my parents strongly stressed at home, that ‘to whom much is given, much is expected.’”

Vincent’s community service is also a matter of heart, said Meyers.

“George has an unmatched sense of humor and is wickedly smart,” she said. “But what people sometimes don’t know is how much he cares. He has a love of Cincinnati and wants to make it the best it can be.”

Bachelor Degree Programs

Culinary and Food Science

Land Surveying

Associate Degree Programs

Accounting Technology 
 Administrative Assistant 
 Applied Technology Specialist
 Associate of Arts 
 Associate of Science
 Associate of Science
 – Health Professions 
 Associate of Technical Study
 – Law Enforcement
 Audio/Video Production Technology
 Automotive Service Management
 Technology
 Aviation Maintenance Technology 
 Brewing Science
 Business Management Technology 
 Chemical Technology
 Civil Engineering Technology
 – Architectural Option
 Civil Engineering Technology
 – Construction Management Option
